MAINSTREET RESTORATIONS & REMODELING, INC. Awarded Historical Renovation of Birmingham's Ford-Peabody Mansion

BIRMINGHAM, MI – November 22, 2005 – Brogan & Partners Convergence Marketing selected MAINSTREET RESTORATIONS & REMODELING, INC. to renovate and repair the exterior of their Michigan headquarters. The office, housed in Birmingham's historic Ford-Peabody Mansion, is located at 325 South Old Woodward.

"Our goal at MAINSTREET has always been to match the existing architecture of a home," said Steven Ramaekers, president of MAINSTREET RESTORATIONS. "The opportunity to work on this historic landmark is the kind of work we love and excel at. Plus, working within walking distance from our office is an added bonus."

MAINSTREET RESTORATIONS will focus on the exterior porches, railings, spindles and balusters—all of which showed decay. Brogan & Partners CEO Marcie Brogan vowed to restore the home to its glory when she purchased it in November 2004 so work began immediately upon approval from Birmingham's building department and the historical society. Renovations are scheduled to be complete in December of this year.

MAINSTREET RESTORATIONS, winner of Remodeling Magazine's 2005 Big50 award, has been remodeling historical and turn of the century homes for more than a decade. Incorporated in 1991, the bulk of MAINSTREET RESTORATIONS' work has focused on renovating and building additions for older homes that intend to keep the historic charm and architecture.

MAINSTREET RESTORATIONS is located in the 555 Building on Old Woodward Ave in Birmingham. The firm houses a design and management staff on site and a field staff of licensed carpenters. MAINSTREET RESTORATIONS is equipped to handle residential renovations of all sizes with a special focus on historical homes. For more information log on at www.mainstreetrestorations.com.
