National Design/Build Firms Flock to Michigan's own Zingerman's Experience

BIRMINGHAM, MI – September 15, 2009 - For the second time in 2009, design/build firms like MainStreet Design Build are coming to Michigan to learn about best-in-class practices. Members of the prestigious national organization Remodelers Advantage will be attending the ZingTrain experience at Michigan's own Zingerman's in Ann Arbor, Michigan.

"Zingerman's Community of Businesses is honored to have participants from Remodelers Advantage visit us. The participants will get an insider's view of our business processes that contributed to Zingerman's success and to Zingerman's being named "the coolest small company in America'," says Stas' Kazmierski, Managing Partner of ZingTrain. "In addition to a seminar on "The Zingerman's Experience", led by Ari Weinzwieg, CEO and co-founder of Zingerman's, participants will get tours of some of the businesses for a behind the scenes view of our production processes and, of course, a taste of our award winning food," adds Mr. Kazmierski.

"Having our professional peers from around the country come to our own backyard for the second time this year was uplifting. Michigan companies have so much to offer in knowledge and expertise, it was great to again see us as a destination state for learning, especially from a company like Zingerman's," says Steve Ramaekers, President of Main Street Design Build.
